### В НАШЕМ САДИКЕ

В нашем садике, друзья,  
Просто замечательно!  
Мы - как дружная семья  
С нашим воспитателем:  
Вместе песенки поём.  
Веселимся, празднуем,  
В общем, здорово живём  
И смеёмся радостно!  
Воспитателям своим.  
Поварам и нянечкам  
Мы «спасибо» говорим,  
Словно нашим мамочкам!

Kindergarten

Kindergarten , kindergarten! Kids rush there.

I'm going to see the garden

- What grows in such a garden?

Maybe pears, grapes?

I am always glad to see them!

- What are you, uncle, do not tell!

- Kids tell me. And shouting with ten men:

"We are growing in the garden!"

(N. Yaroslavtsev)

Kindergarten - an institution for the public education of preschool children. Kindergartens as a type of institution exist in most countries and are usually the first link in the public education system (not counting education received from parents).

The kindergarten system is intended for a massive, generally accessible solution to the problem of the employment of their parents (for which the working time of the kindergarten in most cases coincides with the typical work schedule of most professions: from 7 to 19 hours five days a week). The system of kindergartens also provides minimal

Also in kindergarten, children provide the basis for cultural behavior. In addition to preparing for school, they teach kindness and mercy. They talk about moral standards and cultural
